SUMMARY

Enthusiastic technology student skilled in web development, currently expanding into app development through hands-on projects. Gained practical experience from internships and project work, and passionate about keeping up with emerging technologies. Eager to contribute and grow in a real-world environment, with a strong commitment to learning, innovation, and supporting organizational success.

EDUCATION

Bachelor's of Engineering – Robotics and AI	2021-Present	CGPA:7.31
NMAM Institute of Technology & Engineering, Karkala		
Senior Secondary (12th) - KSEEB	2020-2021	Percentage:84%
Secondary School (SSLC) - CBSE	2018-2019	Percentage:80.4%

SKILLS

Languages   **:** Java, JavaScript, Python.
Interface   **:** HTML, CSS.
Frameworks : Tailwind, Material UI, React, Node.js, Express, Flutter**.**
Database   **:** MongoDB, MySQL.
Tools   **:** Firebase, Postman, Vercel, Netlify, Rapid API, Git, GitHub, Visual Studio Code.

INTERNSHIP

Anmaya Technologies, Udupi   January 2025 - Present
Technologies : Express, React, Node.js, Firebase , Flutter
Developing official website of the Anmaya, ensuring a robust and scalable system. Implementation of remote lab in the website. Developing the app for the company using flutter.

PROJECTS

Anmaya website   January 2025 - Present
Technologies: React, Node.js, Firebase, Flutter.
Developed a Web application using React and Node.js, emphasizing seamless user experience through efficient UI/UX design and state management. Integrated Firebase for real-time data synchronization, user authentication, and cloud storage, ensuring a robust and scalable solution. Developing an Android application using Flutter and Dart for the same.

Smart Trolley   September 2024-December 2025
Technologies: React, Node.js, Express, MySql, Tailwind CSS.
Developed a **smart trolley** system featuring a customer-following robot and an automatic billing mechanism to streamline in-store shopping experiences. Designed and implemented a full-stack web application using React, Tailwind CSS, Node.js, and MySQL to store and manage users' purchase histories. Built an intuitive UI to enable real-time tracking and management of all customer transactions through the platform.

ResumeMatch   December 2023 - January 2024
Technologies: React, node.js, Express.js, MongoDB.
Developed ResumeMatch, a web application that generates professional resumes for users by integrating Gemini Key API for AI-powered resume creation. Implemented multiple customizable resume templates, allowing users to select and personalize their documents seamlessly. Built a scalable full-stack solution with React, Tailwind CSS, Node.js, and MongoDB, featuring an intuitive and responsive user interface.
